**Declaration of Adam M. Slater in Support of  
Mazie Slater's Objection to Recommended Allocation of  
Common Benefit Fees and the Reimbursement of Shared Expenses and Held Costs**

Adam M. Slater, pursuant to 18 U.S.C. §1746, makes this declaration under penalty of perjury:

1. I am a partner in the law firm of Mazie Slater Katz & Freeman, LLC (“Mazie Slater”). This Declaration is based upon my personal knowledge.
2. Mazie Slater tried four pelvic mesh cases prior to the Ethicon cut off at the end of 2016. The four cases include: Gross v. Ethicon, January–February, 2013; Budke v. Ethicon, January, 2015; Bellew v. Ethicon, March, 2015; and Hammons v. Ethicon, November–December 2016. Charts listing the witnesses who testified at each of these four trials, live and on video, including the identity of the attorney who questioned the witness, are attached hereto as Exhibit 1.
3. After the issuance of the Final Written Recommendation (“FWR”), my partner, David Mazie and I met with the Honorable Daniel Stack. There were two meetings: one on November 19, 2018 at our office (along with Tom Cartmell and Jeff Kuntz), and another on January 3, 2019 at Judge Stack’s office in St. Louis, Missouri. We then spoke with Judge Stack by telephone on March 7, 2019. During the meeting on November 19, 2018, Judge Stack, as well as Mr. Cartmell, threatened that if we filed an objection to the FCC’s recommendations the amount awarded to us could be cut by Judge Stack on his final report.
4. During the course of the November 19, 2018 meeting we asked questions regarding the awards to FCC members as well as others. For example, we pointed to the TVM Historical Analysis that had been provided to us during the course of the fee committee process, which set forth just over 1,000 hours for Riley Burnett, Esq., a member of the fee committee. We questioned how the fee committee ultimately recognized more than 9,000 additional hours for Mr. Burnett. We were told that

Derrick Potts had shifted those hours from his time to Mr. Burnett's time, as there had been time spent by contract lawyers performing document review and Mr. Burnett apparently had some unexplained financial interest in those contract lawyers reviewing documents. We were told this was not an isolated example, and that another attorney, Mark Mueller, had failed to submit time for years, but the FCC had recognized work he had performed and awarded him in excess of \$4 million despite the failure of Mr. Mueller to submit that time.

5. On January 3, 2019 my partner, David Mazie and I travelled to St. Louis to meet with Judge Stack. During this meeting, Judge Stack explained to us that he was not acting as a special master, nor as a neutral in the process. Rather, he was acting on behalf of the fee committee. He clearly advised us that he would not recommend an increase to the fees or expenses that the fee committee had awarded to any firm, unless the fee committee were to first approve and agree to pay that amount.
6. During the course of our conversation, Judge Stack told us about a situation within the fee committee that he was deeply disturbed about. Specifically, he told us he "was sickened" and "very angry" that Brian Aylstock had pressured FCC chairman Henry Garrard for more fees at a time when Mr. Garrard was particularly vulnerable, and had told Mr. Garrard that Mr. Aylstock's partner, fee committee member Renee Baggett, would not sign the Preliminary Written Recommendation unless a significantly larger amount was awarded to Mr. Aylstock's law firm. As a result, Mr. Aylstock's law firm was apparently awarded approximately \$10 million more. Judge Stack proceeded to tell us in no uncertain terms that he was "done" with the Aylstock law firm and would never work with them again based upon this conduct.

7. When we advised of our concern that there were law firms who had submitted large numbers of hours to re-review documents that had already been reviewed, Judge Stack did not deny that this had occurred. In fact, he agreed that this had occurred, and he brought up Motley Rice as an example of a law firm that had “padded” its time submissions with thousands of hours to re-review documents; he went on to say that they do this “in every litigation.”
8. We again questioned Judge Stack about the Riley Burnett situation, and he again told us that Mr. Burnett was provided approximately 9,000 hours by the Potts law firm, stating that Mr. Burnett’s award was much too high and that it would need to be severely cut.
9. On March 7, 2019, David Mazie and I had a conference call with Judge Stack prior to the issuance of his report. Judge Stack started off by telling us he had “no good news” for us. Judge Stack advised that the fee committee had authorized a bit more to be allocated to the Anderson law firm and Bernstein Liebhard, but the fee committee gave him “nothing to work with as to Mazie Slater.” Judge Stack reiterated, as he had previously told us, that his report would not be an “independent evaluation,” but would only include awards which the FCC had authorized him to make.
10. We again questioned Judge Stack about the serious situation he had told us about in St. Louis with regard to the Aylstock law firm. He told us that, “he was put in a box” since the agreement between Mr. Aylstock and Mr. Garrard included a provision that Judge Stack would not recommend a lower amount than the amount awarded, and Judge Stack could not upset the deal.

11. Judge Stack made very clear to us, as he had in St. Louis, that this process had been far more involved and demanding than he had expected when he was first retained in this matter, stating “it’s been a nightmare.”

I declare under penalty of perjury that the foregoing is true and correct.

Executed on March 26, 2019
